Moss

Desert

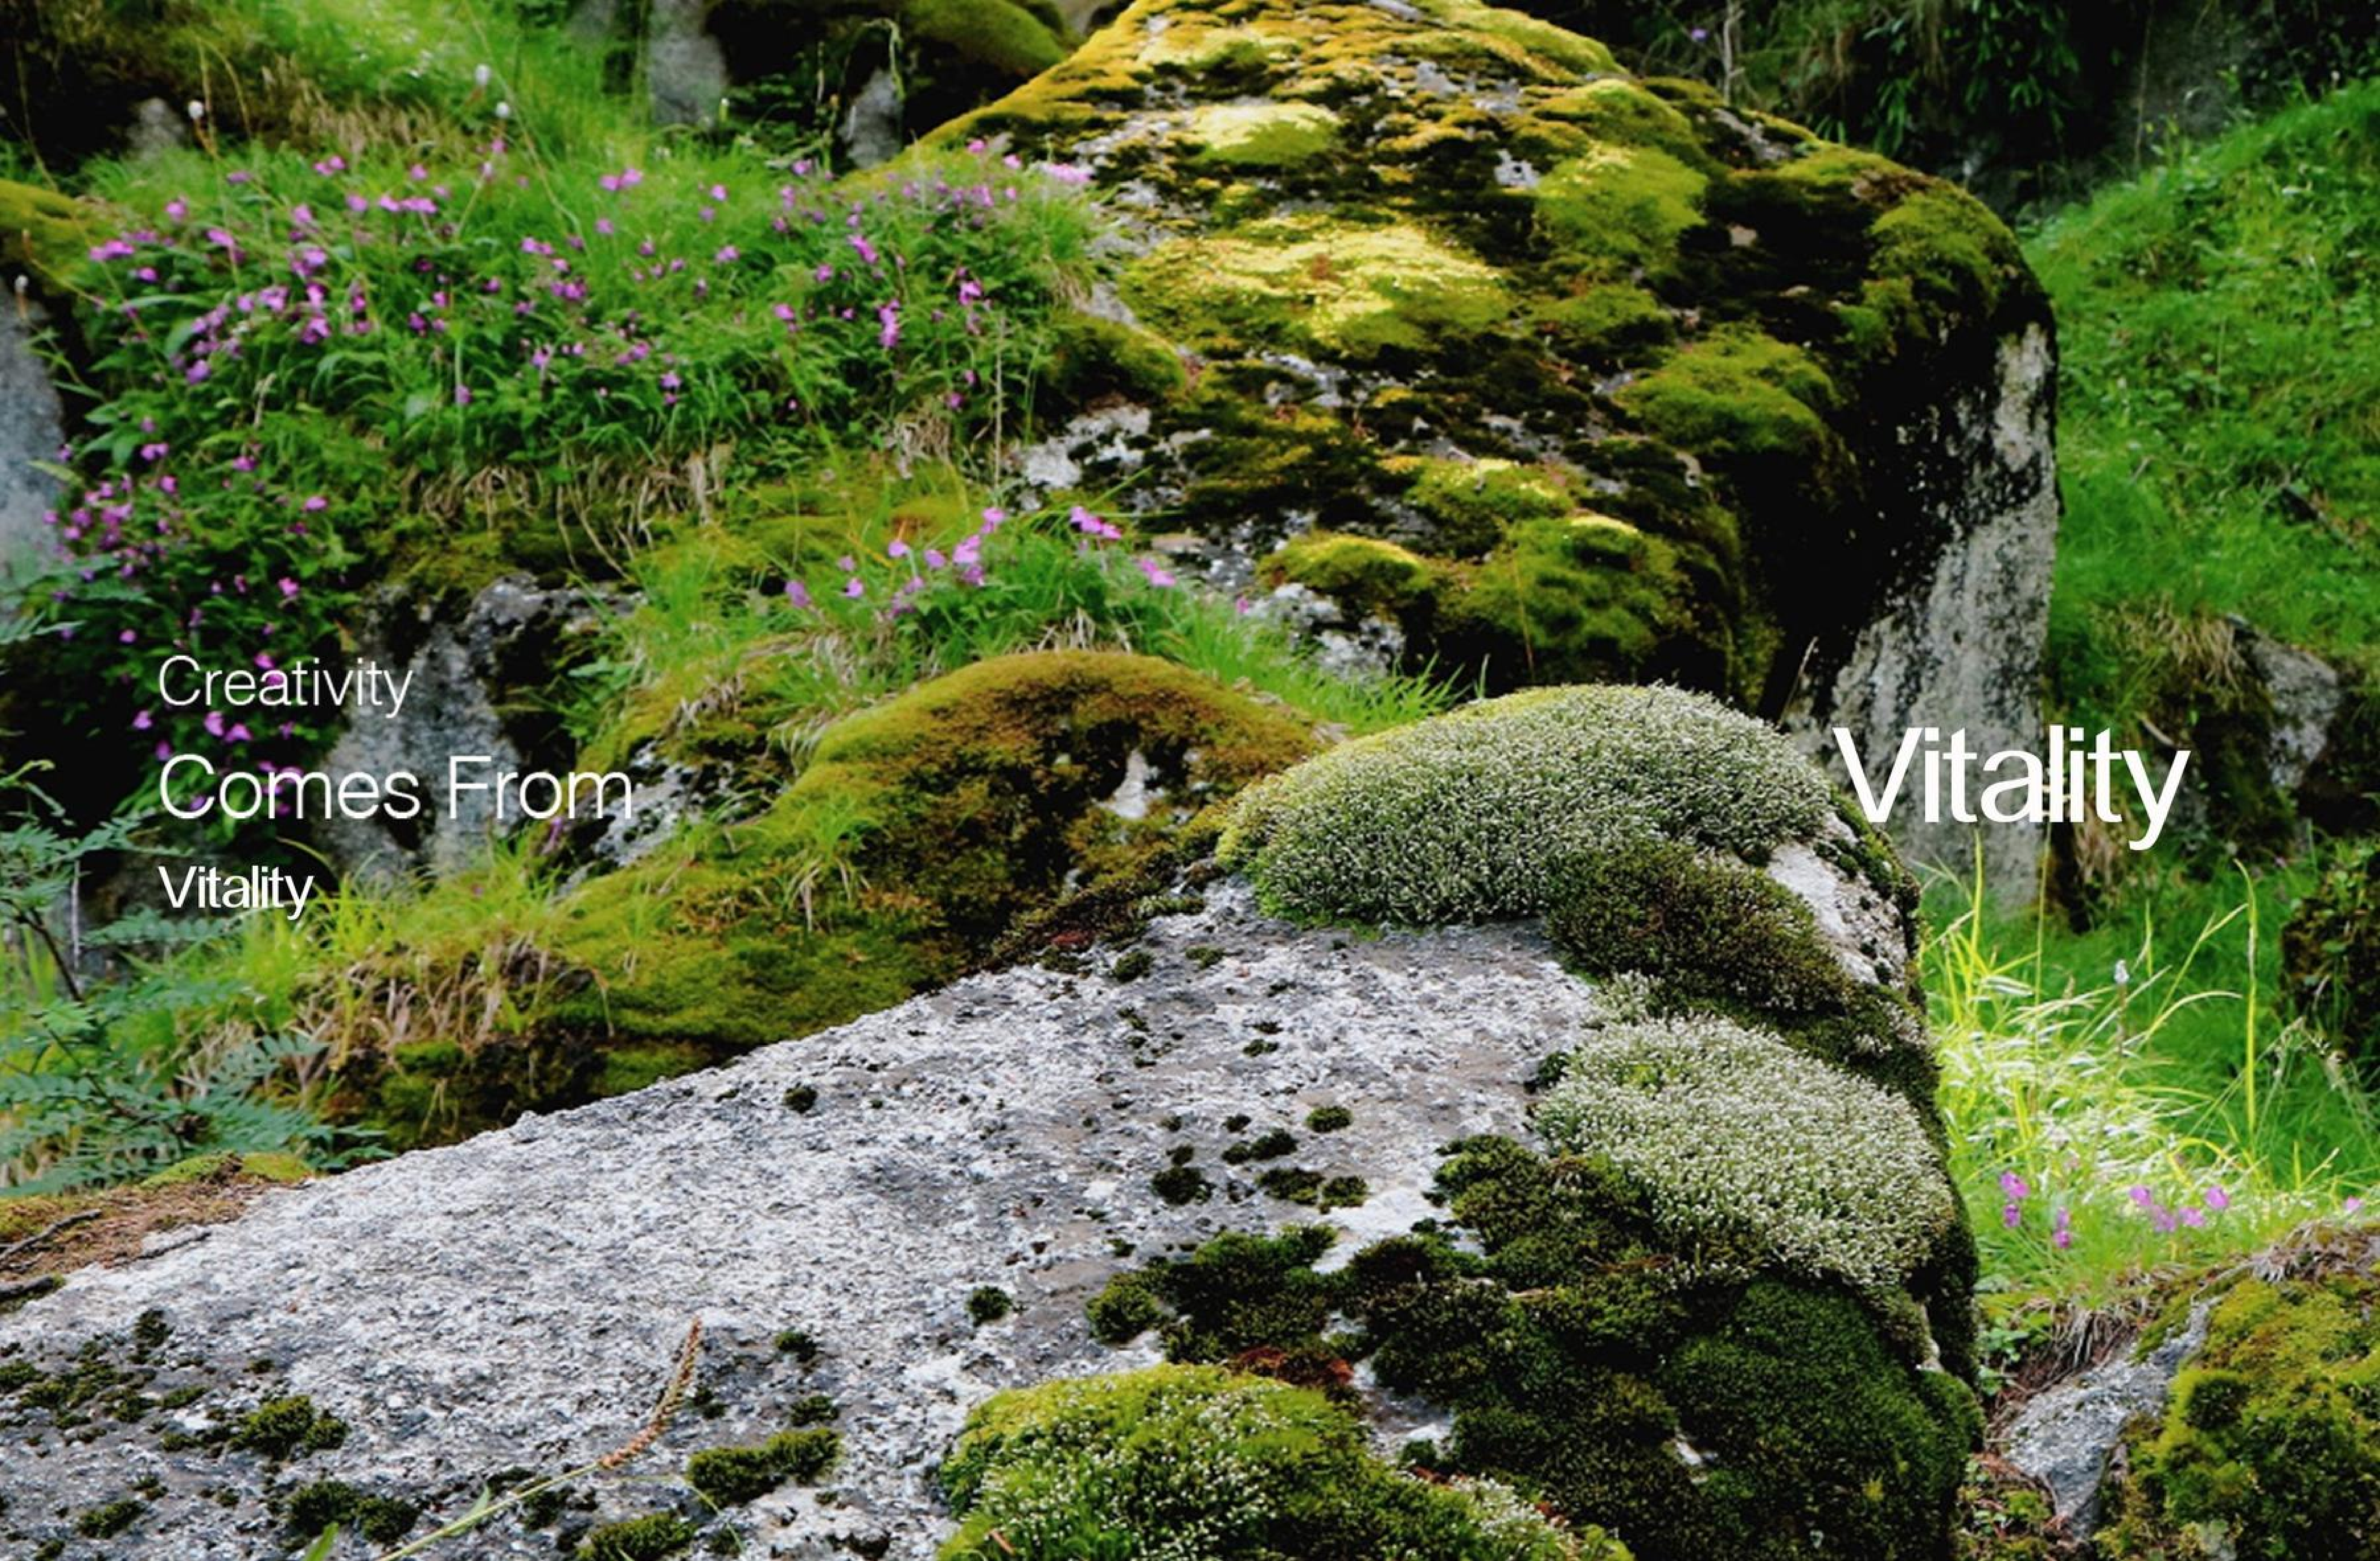

Rock

The texture of the stone of an object. Different textures have different material properties and therefore have different muscle forms, such as stems. And wet, smooth and rough, bright and not bright, soft and hard, and so on, these changes in the texture form are given by nature. People's best decorative elements, using these irregular, abstract elements, with a regular, rational thinking of the graph Shape, the balance of the two elements, conveys a rich and modern pattern effect.

迪亚克主题采用苔藓、沙漠、岩石等表面的肌理。不同的质地有不同的物质属性,因而也就有其不同的肌理形态,例如干和湿、平滑和粗糙、光亮和不光亮、软和硬等等,这些肌理形态产生的变化是自然界给人们最好的装饰元素,运用这些无规律、抽象的元素,搭配具有规律性、理性思维的图形,两种元素的平衡,传达出丰富而具有现代感的图案效果。

A close-up photograph of a moss-covered log in a forest. The log is dark brown and textured, with a thick layer of vibrant green moss growing on its surface. The moss is composed of many small, individual plants, creating a dense, carpet-like texture. The background is a soft-focus forest scene with various shades of green foliage.

An aerial photograph of a desert landscape, showing a winding road that cuts through a series of sand dunes. The dunes are illuminated by warm, golden light, creating a sense of depth and texture. The road is a dark, straight line that curves through the undulating terrain. The overall color palette is dominated by warm, earthy tones of gold, brown, and tan.
